

MEET THE TEACHER!

Mrs. Marshall

THE BASICS

I'm a wife, mom, and cat mom! I love being an art teacher! When I am not working, I love golfing, swimming, traveling, reading, and most of all, spending time with my family and friends!

MY EDUCATION

I graduated from Kendall College of Art and Design of Ferris State University, with a BFA in Visual Communications. After working as a Graphic Designer, I then returned to Kendall to earn my Certification in Art Education. While working as a teacher, I attended Western Michigan University to earn my Masters in Art Education.

ABOUT VISUAL ART AT NIS

5th: Students have art for one semester, this is one of their exploratory classes. In this course, students are exposed to a wide variety of materials and techniques. There is a focus on learning about artists, how to display final artwork, and the process of creating original artworks. Students have the opportunity to work individually and collaboratively.

6th: Students have art for one semester, this is one of their exploratory classes. In this course, students are exposed to a wide variety of materials and techniques. There is a focus on learning about artists, how to display final artwork, and the process of creating original artworks. Students have the opportunity to work individually and collaboratively. During 6th grade art, there is a strong focus on students transitioning to find their own voice and vision in their artwork as well.

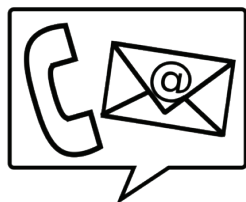

MOCI: Students in MOCI art are exposed to art through literacy, hands-on manipulation of materials, exploring many different mediums, and creating final pieces of artwork, as well as focusing on the process of art making.

STEAM (Grade 5/6): Students will have STEAM during flex time, usually on Friday. This time is for exploration, extension and collaboration.

ART CLUB:

Art Club is for any 5th or 6th grade student who fills out an application and turns it in on time. There are a limited amount of spaces, due to space and materials. In Art Club, students learn about new artists, explore new materials, and make connections with other students who enjoy art. An announcement will be made when applications are available. Students must listen to the announcements, to find out when to pick the application up from the office.
